*With permission of the Director of Undergraduate Studies, Phys 141/142 may replace Phys 151/152

**Taking both MATH221 (Linear Algebra) and MATH351 (Partial Differential Equations) would excuse any BS major from the PHYS220 requirement. But please note: PHYS220 is a pre-req for many upper-level PHYS classes…you should not put off PHYS220 in, say, your second year in exchange for a nebulous I’ll-take-two-extra-MATH-courses-in-Senior-year plan.*
